

In California alone there were over 7,285 opioid overdose deaths in 2022, including over 6,473 deaths from fentanyl. Fentanyl related deaths have doubled in the last year. More than 21,000 emergency room visits were related to opioid overdoses.¹ It's all hands-on deck.

Hospitalization is a “reachable moment” for many people with opioid use disorder (OUD).² To accelerate hospital progress in building systems to treat hospitalized patients with OUD and train health care professionals in opioid safety practices, Cal Hospital Compare developed the California Opioid Care Honor Roll Program. The goal of the program is increased access to addiction treatment for hospitalized patients and reduction of opioid-related deaths.

- All California adult, acute care hospitals were invited to participate, and 155 hospitals voluntarily submitted data sharing their progress on implementing evidence-based practices to address the opioid crisis.
- The 155 participating hospitals represent almost half of all adult, acute care hospitals in California. Participating hospitals reflect a diverse cross section of all California hospitals across rural, urban, and academic care settings.
- The 2024 Opioid Care Honor Roll program saw a 40% increase in participation over the prior year. This signals the ongoing commitment of California hospitals to address opioid use disorder in their communities.
- Participation in the Opioid Care Honor Roll is a signal to California’s healthcare community that all 155 hospitals are actively accelerating and strengthening their opioid stewardship programs.
- Participating hospitals answered eight questions across four key domains of care including safe and effective opioid use, identifying and treating patients with OUD, harm reduction practices, and applying cross-cutting opioid management best practices.
- The 2024 Opioid Care Honor roll recognizes four tiers of performance: Superior Performance, Excellent Progress, Most Improved and Sustained Improvement. The methodology is detailed [here](#).
- 55 hospitals achieved ‘Superior Performance,’ with 29 of those hospitals having ‘Sustained’ improvement over the past two years.
- Hospitals achieving ‘Superior Performance’ have implemented advanced, innovative opioid stewardship and harm reduction strategies across multiple service lines, consistently achieving the highest level of performance. Hospitals in this category are actively addressing stigma with their physicians and staff. In addition, these hospitals have embedded opioid stewardship

¹ [California Overdose Surveillance Dashboard](#). Accessed May 8, 2024.

² [Bottner & Moriates. Hospitals are missing link in easing the opioid crisis. STAT, Jun 2019. Accessed Nov 13, 2020.](#)

resources and workflows across their service lines to ensure preventative care and treatment remain accessible to the broader community for years to come.

- Hospitals that received ‘Sustained Improvement’ have achieved a status of ‘Superior Performance’ for two consecutive years. These hospitals have consistently implemented advanced and innovative opioid stewardship strategies across multiple service lines. They have demonstrated the highest level of performance across the four domains of care, as measured by the Opioid Management Hospital Self-Assessment. Moreover, these hospitals actively measure and monitor their performance to ensure continuous quality improvement.
- 38 hospitals achieved ‘Excellent Progress.’ Hospitals achieving ‘Excellent Progress’ have taken steps to spread and scale appropriate opioid prescribing guidelines, OUD treatment, and harm reduction strategies across one or more service lines that reduce the use and risk of opioids for patients who visit emergency rooms, new patients with pain, and patients being discharged to reduce the likelihood of chronic use. These hospitals consistently achieve a Level 2 or 3 across the four domains of care as measured by the Opioid Management Hospital-Self Assessment.
- 32 hospitals achieved the ‘Most Improved’ designation. Over the past 12 months, these hospitals have made tremendous progress advancing their opioid stewardship programs in two or more domains of care. Changes resulted in at least a 5-point increase in their self-assessment results from the previous year. This level of progress requires close collaboration between all members of the quality improvement team, and continuous rapid cycle improvement.
- There is still room for improvement in various areas. These opportunities encompass addressing stigma among physicians and staff, enhancing patient and family engagement, expanding harm reduction services, and integrating opioid stewardship resources and workflows into every hospital service line.
- In 2025, Cal Hospital Compare will update the Opioid Management Hospital Self-Assessment with emerging best practices and continue to support their rapid spread among participating hospitals.

About the 2024 Opioid Care Honor Roll Program

Sustained Improvement (Superior Performance 2 years running)	
Hospital Name:	City:
Adventist Health Bakersfield	Bakersfield
Adventist Health Howard Memorial	Willits
Adventist Health Mendocino	Fort Bragg
Adventist Health Ukiah Valley	Ukiah
Barton Memorial Hospital	South Lake Tahoe
Clovis Community Medical Center	Clovis
Community Hospital of the Monterey Peninsula	Monterey
Community Regional Medical Center	Fresno
Dignity Health - California Hospital Medical Center	Los Angeles
Dignity Health Bakersfield Memorial Hospital	Bakersfield
Dignity Health Mercy Medical Center Mount Shasta	Mount Shasta
Dignity Health Mercy Medical Center Redding	Redding
Dignity Health Sierra Nevada Memorial Hospital	Grass Valley
Dignity Health Woodland Memorial Hospital	Woodland
Eisenhower Health Hospital	Rancho Mirage
Hoag Memorial Hospital Presbyterian	Newport Beach
Hoag Orthopedic Institute	Irvine
Kaiser Permanente San Rafael Medical Center	San Rafael
LA General	Los Angeles
Mee Memorial Hospital	King City
MemorialCare Orange Coast Medical Center	Fountain Valley
MemorialCare Saddleback Medical Center	Laguna Hills
Pomona Valley Hospital Medical Center	Pomona
Providence Mission Hospital - Mission Viejo	Mission Viejo
Scripps Green Hospital	San Diego
Scripps Memorial Hospital - Encinitas	Encinitas
Scripps Memorial Hospital - La Jolla	San Diego
Scripps Mercy Hospital San Diego	San Diego
UC Davis Medical Center	Sacramento

Superior Performance	
Hospital Name:	City:
Adventist Health Simi Valley	Lancaster
Dignity Health Arroyo Grande Community Hospital	Arroyo Grande
Dignity Health Mercy Medical Center Merced	Merced
Dignity Health Mercy San Juan Medical Center	Carmichael
Dignity Health Methodist Hospital of Sacramento	Sacramento
Dignity Health St. Bernardine Medical Center	San Bernardino
Dignity Health St. Francis Memorial Hospital	San Francisco
Dignity Health St. Mary's Medical Center - San Francisco	San Francisco

About the 2024 Opioid Care Honor Roll Program

Superior Performance	
Hospital Name:	City:
Enloe Medical Center - Esplanade Campus	Chico
Goleta Valley Cottage Hospital	Goleta
Kaiser Permanente San Leandro Medical Center	San Leandro
Kaiser Permanente South Sacramento Medical Center	Sacramento
Kaiser Permanente Vacaville Medical Center	Vacaville
Kaiser Permanente Vallejo Medical Center	Vallejo
Marshall Medical Center	Placerville
Providence St. Jude Medical Center	Fullerton
Ronald Reagan UCLA Medical Center	Los Angeles
Santa Barbara Cottage Hospital	Santa Barbara
Santa Ynez Valley Cottage Hospital	Solvang
SCVH Santa Clara Valley Medical Center	San Jose
SCVH St. Louise Regional Hospital	Gilroy
